

Stillwater Creek Biotechnical Stream Bank Stabilization Workshop

A Workshop in Stream Investigation, Stabilization and Design

Presented by:

Sacramento Watersheds Action Group and the Shasta College Foundation

- This 4 day workshop consists of field and classroom instruction. Learn methodologies for planning, analyzing, and designing long-term stream stabilization /restoration projects using various environmentally-sensitive stream bank stabilization techniques.
- Utilize stream investigative skills learned in the beginners workshop and biotechnical streambank stabilization techniques to develop a restoration plan for Stillwater Creek.

Pull out your waders and join us!
